PROFILE

Information Science graduate (B.Tech, **CGPA 8.72/10**) with **six months** of hands-on experience in **requirements analysis, workflow and process documentation, and SQL-based data validation.** Skilled at translating business needs into clear specifications and validating system data for accuracy. Seeking an entry-level **Operations Analyst role** where structured **problem-solving,** process mapping, and clear stakeholder communication improve how a team operates.

SKILLS

- **Data & Analysis:** SQL (MySQL), data validation, query-based analysis, requirements analysis
- **Process & Operations:** Process mapping, workflow documentation, functional specifications, task tracking
- **Tools:** Confluence, Git/GitHub, MySQL
- **Methodologies:** Agile/Scrum, sprint planning
- **Technical Foundation:** Java, Spring Boot, React
- **Communication:** Cross-functional collaboration, stakeholder communication, technical documentation

EXPERIENCE

Sai Heating & Cooling Solutions — *Bengaluru, India*

Operations & Business Support Assistant — Feb 2026 – Aug 2026

- Gathered and analyzed functional requirements for project modules and documented them as clear specifications for development, testing, and business teams.
- Mapped application workflows and process flows in Confluence, giving all teams a shared view of how each module operates.
- Wrote and ran MySQL queries to validate data, confirm system accuracy, and provide verified data points to project stakeholders.
- Coordinated sprint planning and task tracking across React (frontend) and Spring Boot (backend) work so deliverables stayed aligned with the original business requirements.

PROJECTS

Robotic Arm for Pick and Place Operation Using Image Processing (Academic Project)

- Developed a robotic arm project using Java and embedded system concepts to automate object movement with precision and efficiency. Integrated sensors and motor control mechanisms to perform programmed pick-and-place operations in real time.
- Designed the system with a focus on automation, accuracy, and smooth mechanical movement while improving problem-solving and hardware–software integration skills. Gained hands-on experience in robotics, control systems, and microcontroller-based applications.

Customer Support & SLA Performance Analysis | Microsoft Excel

Project Link: https://github.com/Nehapatil244/customer-support-sla-performance-analysis

- Analyzed 550 simulated customer support tickets to evaluate ticket resolution, SLA compliance, customer satisfaction, and operational performance.
- Used Excel formulas, KPI analysis, and dashboard visualizations to monitor performance trends and identify service bottlenecks.
- Evaluated department-wise and monthly performance to identify areas for improvement in SLA compliance and ticket resolution.
- Prepared a business report summarizing key performance indicators, operational insights, and data-driven recommendations.

Tools: Microsoft Excel, Data Cleaning, KPI Analysis, Dashboard Reporting, Data Visualization.

Business Operations & Performance Analysis | Excel, Google Sheets, Data Analysis
Project Link: https://github.com/Nehapatil244/business-operations-performance-analysis

- Analyzed 240 operational records to evaluate business performance, task completion, delays, operating costs, and customer complaints.
- Tracked key performance indicators (KPIs), including target achievement, delay rate, and cost per completed unit.
- Developed dashboards and department-wise and monthly performance summaries to identify operational trends.
- Compared departmental performance and identified areas for improvement in operational efficiency and service quality.
- Proposed data-driven recommendations to reduce delays, monitor costs, and improve overall business performance.

EDUCATION

R.R. Institute of Technology, VTU — *Bengaluru, India*
B.Tech in Information Science and Engineering — Sep 2023 – Mar 2026

- Among the top 5% of the batch
- CGPA: 8.72/10

CERTIFICATIONS

- Artificial Intelligence – NoviTech R&D Private Limited.
- Java Full Stack with Cloud and Devops-Dhee Coding Lab.

LANGUAGES

- English | Kannada |Hindi
